EDUCATION

B.Tech DADI INSTITUTE OF ENGINEERING AND TECHNOLOGY C.G.P.A: 8.25 (Till 3-2)	06/2023 – Present Anakapalle, Andhra Pradesh
Intermediate SRI CHAITANYA JUNIOR COLLEGE Percentage: 79.4%	06/2021 – 06/2023 Anakapalle, Andhra Pradesh
SSC IDEAL ENGLISH MEDIUM HIGH SCHOOL Percentage: 100%	06/2020 – 06/2021 Anakapalle, Andhra Pradesh

SKILLS

Programming: Python, C	Developer Tools: Jupyter notebook
Database: MySQL	Soft skills: Communication, Adaptability, Flexibility, Time Management & Organization

CERTIFICATES

Google Analytics Certification (GA4) Google Cloud	Microsoft Excel for Data Analyst Infosys Springboard
Introduction to Data Science Cisco Networking Academy	

COURSES

Data Analytics Job Simulation Deloitte	10/2025 – 11/2025 Remote
Skills learned: Data analysis, Forensic technology	

PROJECTS

Text-to-Speech (TTS) System

- Implemented end-to-end TTS pipeline with real-time speech output
- Customizable voice properties (rate, volume, voice ID)
- Demonstrated applications in accessibility and HCI
- Proposed extensions for real-world deployment (GUI, speech recognition, AI voices)

PUBLICATIONS

Automated Text Summarization System for Information Overload Reduction IEEE Computer Society	24/02/2026
• Developed an NLP-based system that generates concise, coherent summaries from large-scale textual data (TXT, PDF, DOCX) using extractive summarization techniques. • Implemented tokenization, stop-word removal, TF-IDF vectorization, and cosine similarity for sentence ranking. • Optimized for academic, legal, and business documents, reducing information overload while maintaining content relevance. • Tools used: Python, NLTK, Scikit-learn. • Future scope includes abstractive models using transformers (BERT/GPT).
